

CALL FOR REVIEWERS

Are you an Expert?

All submissions to the DMJ are reviewed by professional members of the medical and scientific community. This is beneficial for the quality of the DMJ, and also contributes to valuable feedback for our manuscript authors, many of which are medical students. Our review process enables efficient communication between authors and reviewers, and provides an opportunity for students to improve their research and manuscript writing skills. Confidentiality of both reviewer and author is maintained throughout the review process.

If you are interested in becoming a reviewer please contact us at dmj@dal.ca
