

# The Critical Edition of Gregory of Nyssa's *In Hexaemeron*: A Preliminary Report

Hubertus R. Drobner

THEOLOGISCHE FAKULTÄT PADERBORN

## I.

When the famous German philologist Ulrich von Wilamowitz-Moellendorff (1848–1931)<sup>1</sup> celebrated his sixtieth birthday he was given funds in order to promote the critical edition of a classical author of his choice.<sup>2</sup> Rather surprisingly for his time he chose Gregory of Nyssa and, after devoting a few years to the basic collection of manuscripts, in 1911 he entrusted his young pupil Werner Jaeger (1888–1961) with it at the age of twenty-three, who had just been awarded his doctorate in classical studies.

His choice proved an excellent one, for Werner Jaeger not only became heart and soul of the new enterprise, but also a competent philologist in his own right.<sup>3</sup> In 1921 he published the first two volumes containing Gregory's *Contra Eunomium*; his friend Giorgio Pasquali edited the letters in 1925.<sup>4</sup>

Shortly thereafter progress was halted because of financial reasons. Inflation devaluated the funds, yet Werner Jaeger did not abandon the project. He carried on privately, and when he was appointed to Harvard University in 1939 his "Harvard Institute for Classical Studies" provided him with the means of reviving the project on a large scale. He attracted numerous international scholars for collaboration, so that at the time of his death in 1961 three further volumes had been completed: 1952 *Opera ascetica*, 1958 *Opera dogmatica minora* vol. I, 1960 *In Canticum Canticorum*.

Since that time eight more volumes have been published: 1962 vol. V (*In inscriptiones Psalmorum, In sextum Psalmum* and *In Ecclesiasten homiliae*), 1964 *De vita Moysis*, 1967 *Sermones* vol. I, 1987 *Opera dogmatica minora*

1. Cf. Max Pohlenz, Ulrich von Wilamowitz-Moellendorff (Göttingen, 1932).

2. For the history of the Gregory of Nyssa-edition cf. Hadwig Hörner, Über Genese und derzeitigen Stand der grossen Edition der Werke Gregors von Nyssa: Écriture et culture philosophique dans la pensée de Grégoire de Nysse. Actes du colloque de Chevetogne (22–26 septembre 1969), édités par Marguerite Harl (Leiden, 1971) 18–50.

3. Cf. Wolfgang Schadewaldt, Gedenkrede auf Werner Jaeger: 1888–1961. Mit einem Verzeichnis der Schriften Werner Jaegers (Berlin, 1963). Aus: Schweizer Monatshefte 42 (1962) Heft 7.

4. For a complete list of the *Gregorii Nysseni Opera* see end of article.

vol. II, 1990 *Sermones* vol. II, 1992 *De oratione dominica* and *De beatitudinibus*, 1996 *Oratio catechetica* and *Sermons* vol. III.

Four works currently in progress will complete the project of providing a critical edition for Gregory of Nyssa's extant *Opera omnia*. They are: *Epistula canonica*, edited by Hilde Polack, currently in the press; *De hominis opificio*, being prepared by Hadwig Hörner, professor emerita of Frankfurt University; *De anima et resurrectione*, in preparation by Andreas Spira, professor emeritus of Mainz University; and *In Hexaemeron*, for which I am now responsible.<sup>5</sup>

## II.

The first collation for *In Hexaemeron* was done by Werner Jaeger himself, that is, before 1961. After that the edition passed into the most able hands of Frau Hadwig Hörner and her team in Frankfurt, and she eventually entrusted Martin Henniges with it, who was not able to bring it to completion because he is a teacher at a "Gymnasium" with a family, and simply could not afford enough time for the project.

When I took over, I was therefore presented with a fair amount of material: A list of sixty-one manuscripts ranging from the ninth to the seventeenth century; reproductions of fifty-four of them or parts thereof, either on microfilm or papercopy; collations of forty of them, some complete, some incomplete; numerous notes regarding the interdependence of the manuscripts; some notes towards a commentary to be inserted in the *apparatus testimoniorum*; a few copies from the manuscript catalogues; and a German translation of the text by Martin Henniges.

## III.

The further study of the manuscripts revealed that only a total of fifty-six really contain the text of Gregory's *In Hexaemeron* or parts of it. Forty three manuscripts provide the complete text (no. 1, 2, 3, 5, 6, 7, 8, 9, 11, 12, 13, 14, 15, 16, 18, 19, 20, 21, 23, 24, 25, 26, 28, 29, 30, 33, 34, 36, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 54, 56), three only preserve the major part of the text, while the end is missing (10, 22, 55) in two out of three cases (no. 10 and 55) because of the mutilation of the codex, ten only present fragments/excerpts of the tractate (no. 4, 17, 27, 31, 32, 35, 37, 38, 39, 53).

5. For a complete and up-to-date list of the critically edited works of Gregory of Nyssa and those yet missing cf. *Lexicon Gregorianum*. Wörterbuch zu den Schriften Gregors von Nyssa. Bearbeitet von Friedhelm Mann, vols. 1-3 (Leiden, 1999-2001).

 FORBES (1855) II.

## IV.

In addition to this list of manuscripts which contain the text of Gregory of Nyssa's *In Hexaemeron* either in full or in part, Emmanuel Amand de Mendieta and Stig Y. Rudberg mention in their critical edition of Basil's *Homiliae in Hexaemeron*, that various manuscripts show scholia and glosses that include quotations from Gregory of Nyssa's *In Hexaemeron*.<sup>16</sup> Eight of them they include in their special *apparatus scholiorum et glossarum*: 1) Parisinus graecus 476 (beginning of X cent.); 2) Athous Lavra 81 (457) (beginning of X cent.); 3) Laurentianus IV 27 (beginning of X cent.); 4) Vaticanus graecus 408 (end of X cent.); 5) Vaticanus graecus 2066 (IX–X cent.), which contains Gregory of Nyssa's *In Hexaemeron* as well; 6) Marcianus graecus 58 (499) (IX–X cent.); 7) Ianuensis, Franzoniana graecus 17 (end of X cent.), which contains Gregory of Nyssa's *In Hexaemeron* as well; and 8) Oxoniensis Baroccianus graecus 228 (X–XI cent.).

Five passages from Gregory are quoted therein: 1) PG 44, 80 B–C 15–41 ad Bas. *Hex* II 1 (GCS 22,15) from Laurentianus IV 27; 2) PG 44, 76 B 4–9 ad Bas. *Hex* II 7 (GCS 33,6) from Laurentianus IV 27; 3) PG 44, 77 B 8–C 4 ad Bas. *Hex* II 8 (GCS 35,14) from Laurentianus IV 27, Vaticanus graecus 408, Oxoniensis Baroccianus graecus 228; 4) PG 44, 73 A 12–B 9 ad Bas. *Hex* III 2 (GCS 39,15) from Laurentianus IV 27, Vaticanus graecus 408, Oxoniensis Baroccianus graecus 228; and 5) PG 44, 80 C 13–81 A 11 ad Bas. *Hex* III 4 (GCS 45,15) from Laurentianus IV 27. These scholia have not been inspected yet, but they might provide some new insight into particular variants of the passages quoted.

16. Basilius von Caesarea, Homilien zum Hexaemeron. Herausgegeben von Emmanuel Amand de Mendieta † und Stig Y. Rudberg [= Die Griechischen christlichen Schriftsteller der ersten Jahrhunderte, Neue Folge, Band 2] (Berlin 1997) XI.

## V.

Though the studies of the manuscripts are by no means complete, a few conclusions suggest themselves regarding their relationships and importance.

It appears to be proven that: Berolinensis Philippi 1471 is a copy (apographon) of Parisinus graecus 586; Florentinus Laurentianus Mediceus graecus plutei VII 4 and X 12 are copies (apographa) of Vaticanus graecus 405; Monacensis graecus 23 is a copy (apographon) of Venetus Marcianus graecus 67; Parisinus graecus 503, Parisinus graecus 777 A, and Parisinus graecus 940 are identical fragments, either dependent on one another or on a common source now lost; Parisinus graecus 586 is a copy (apographon) of Vaticanus graecus 697; Parisinus graecus 1007 is a copy (apographon) of Oxoniensis Bodleianus Baroccianus graecus 144; Vaticanus Palatinus graecus 327 is a copy (apographon) of Parisinus graecus 1007; and Vaticanus Urbinas graecus 12 is a copy of Morel's edition of 1615.

Further dependencies seem to be highly probable: Matritensis 4806, Messinensis 50, and Vaticanus Ottobonianus graecus 167 all seem to be dependent on Florentinus Laurentianus Mediceus graecus plutei IV 18; Matritensis 4852 probably is a copy (apographon) of Matritensis 4610.

The following manuscripts seem to form distinctive families:

- 1) Atheniensis graecus Benaki 10  
Cantabrigiensis collegii Trinitatis 197 (B.9.1)  
Florentinus Laurentianus Mediceus graecus plutei VI 17  
Venetus Marcianus graecus 67 with its apographon  
Monacensis graecus 23
- 2) Atheniensis Metochii S. Sep. 773  
Romanus Vallicellianus graecus D 56  
Salamanticensis Universitatis 2728  
Taurinensis C I 11  
Vaticanus graecus 405 with its apographa  
Florentinus Laurentianus Mediceus graecus plutei VII 4 and  
Florentinus Laurentianus Mediceus graecus plutei X 12  
Vaticanus Ottobonianus graecus 119  
Venetus Marcianus graecus II 57 (olim Nanianus graecus 78)
- 3) Athous Λαῦρα B 105 = 225  
Chalki 107  
Matritensis 4750  
Monacensis 192  
Mosquensis B 288.702

- Oxoniensis Bodleianus Auctarium F.1.1  
 Parisinus Coislinianus 253  
 Parisinus graecus 1268  
 Vaticanus graecus 697 with its apographon  
 Parisinus graecus 586  
 Vaticanus Ottobonianus graecus 247
- 4) Athous Vatopediu 128  
 Parisinus graecus 479  
 Vaticanus graecus 1433  
 Vaticanus graecus 1907
- 5) Escorialensis Ω IV 24  
 Leidensis Vossianus graecus 37  
 Londinensis Musei Britannici graecus "Old Royal" 16 D I  
 Parisinus graecus 1008
- 6) Florentinus Laurentianus Medicus graecus plutei IV 18  
 Messinensis 50  
 Vaticanus Ottobonianus graecus 167  
 Matritensis 4806

Finally, the two fragments Londinensis Burney 34 and Monacensis graecus 136 seem to belong together somehow, as they both present the virtually identical segment of the text:

Londinensis Burney 34: PG 44, 69,50–72,43  
 Monacensis graecus 136: PG 44, 69,50–72,40

A direct comparison, however, does not yield any immediate conclusion:

Migne	Lond. Burney 34	Mon. gr. 136
69,50 ἐπειδὴ γάρ	ἐπειδήπερ	ἐπειδὴ
69,55 τῇ γῆ	γῆ	τῇ γῆ
72,1 ὅτι ἀθρόως	ἀθρόως	ὅτι ἀθρόως
72,4 ἡ σημασία	σημασία	ἡ σημασία
72,7 περίστησι	παρίστησι	περίστησι
72,9 διαστηματικοῦ	διαστηματικῶ	διαστικῶ
72,10 γραμμῆς	τῆς γραμμῆς	γραμμῆς
72,11 οὕτως	οὕτω	οὕτω
72,16 σιωπόμενον	σιωπόμενον	σιωπόμενον
72,18 ἢ	ἢ	ἢ
72,22 ὁ θεὸς ἐν ἀκαρεῖ κατεβάλετο	ἐν ἀκαρεῖ κατεβάλετο ὁ θεός	ὁ θεός ἐν ἀκαρεῖ κατεβάλετο

72,25	ζῶον	ζῶα	ζῶον
72,31	τὸ πῦρ	πῦρ	τὸ πῦρ
72,32	προεκφανῆναι τῶν ἄλλων	προεκφωνηθῆναι τῶν ἄλλων	προεκφανῆναι τῶν ἄλλων
	τῶν ἐν τῷ	τὸ δέ τι	
72,36	τὸ ἐφεξῆς	τῶν ἐν τῷ	τῶν ἐν τῷ
72,40		τὸ ἐφεξῆς	ἐφεξῆς
72,53	τοῦ θεοῦ	θεοῦ	explicit

Six of the manuscripts seem to be of primary importance:

1) Vaticanus graecus 2066 (end of IX cent.); 2) Venetus Marcianus graecus 67 (middle of XI cent.); 3) Cantabrigiensis collegii Trinitatis B.9.1 (XI cent.); 4) Vaticanus graecus 1907 (end of XII cent. or XII–XIII cent.); 5) Londinensis Musei Britannici graecus “Old Royal” 16 D I (XII cent.); and 6) Vaticanus graecus 405 (end of XII / beginning of XIII cent.)

## VI.

Before the Greek text of Gregory of Nyssa’s *In Hexaemeron* was ever printed, two Latin translations of the treatise were published and repeatedly reprinted:

### 1) Franciscus Zinus

*D. Gregorii Nyssa pontificis, Magni Basilii fratris, doctissimus in Hexaemeron commentarius. Aliquot tum eiusdem, tum aliorum auctorum orationes pulcherrimae, quarum argumenta in proxima pagina perspicies. Gregorii, rerum admirabilium effectoris, de anima libellus, Petro Francisco Zino Veronensi interprete. Aldi Filii, Venetiis. MDLIII.*

[*In Hexaemeron*: fol. 6–36]<sup>17</sup>

*Divi Gregorii Nysseni episcopi, fratris Basilii Magni, omnia quae exstant opera, hactenus studio virorum doctissimorum in Latinum sermonem conversa. Quid autem sit praestitum in hac editione omnium postrema, et quae superioribus accesserint opuscula aut nunquam prius typis excusa, aut seorsum edita: ex praefatione sequenti, et ex librorum catalogo versis aliquot foliis, lector intelliget. Cum indice locorum sacrae scripturae, et rerum memorabilium. Parisiis, apud Sebastianum Nivellium sub ciconiis via Iacobeae. MDLXXXIII.*

[*In Hexaemeron*: col. 1–26]<sup>18</sup>

*Aurea ac divina quaedam trium sanctitate, doctrinaque praestantium Gregoriorum, Neocaesariensis, Nysseni, et Nazianzeni opera, a Petro Francisco Zino, canonica Veronensi Latinitate donata. Operum index in proxima pagella. Venetiis, apud Bologninum Zalterium. MDLXXXIV.*

17. Cf. Margarete ALTENBURGER—Friedhelm MANN, *Bibliographie zu Gregor von Nyssa. Editionen—Übersetzungen—Literatur* (Leiden, 1988) 16.

18. *Ib.* 32 f.

[*In Hexaemeron*: fol. 12–33v]<sup>19</sup>

*Beati Gregorii Nysseni episcopi, fratris Basilii Magni, opera omnia quae exstant, duobus tomis comprehensa. Hactenus studio virorum doctissimorum in Latinum sermonem conversa, et recens notis ex adversariis Frontonis Ducae Burdegalensis S.I. collectis, illustrata. Quid autem sit praestitum in hac editione, et quae accesserint opuscula, ex praefatione, et librorum catalogo, lector intelliget. Cum indicibus locorum sacrae scripturae et rerum memorabilium. Parisiis, apud Claudium Morellum, via Iacobaea, ad insigne fontis. MDCV.*

[*In Hexaemeron*: col. 1–26]<sup>20</sup>

*S. patris nostri Gregorii episcopi Nysseni, fratris Basilii Magni, opera quae extant omnia, studio doctissimorum virorum ex ms. et vetustiss. Graecis codd. in Latinum conversa. Additae sunt R.P. Frontonis Ducae S.I. et aliorum theol. notae, quibus cum interpretatio vetus quorundam librorum emendatur, tum nova reliquorum illustratur. Cum indicibus locorum sacrae scripturae et rerum memorabilium. Coloniae Agrippinae sumptibus Antonii Hierat, bibliopolae sub signo gryphi. Anno MDCXVII.*

[*In Hexaemeron*: 1–10]<sup>21</sup>

Zinus' translation was then reprinted with the editions of the Greek text Paris 1615, Paris 1638, and Paris 1858 (see chapter VII).

## 2) *Laurentius Sifanus*

*Divi Gregorii, episcopi Nysseni, fratris Basilii Magni, opera quae adipisci licuit omnia, pleraque antehac nunquam visa, de Graeco in Latinum a diversis, sed potissimum a D. Laurentio Sifano I.V.D. clariss. translata: quorum catalogum post praefationem invenies. Additus est index rerum memorabilium et locorum scripturae uberrimus. Basileae excudebat Nic. Episcopus F. sibi et haeredibus. Ar. Birckmanni. Anno MDLXII.*

[*In Hexaemeron*: 283–14]<sup>22</sup>

*Opera d. Gregorii, Nysseni episcopi, fratris Basilii Magni, de Graeco in Latinum sermonem conversa, studio potissimum atque opera Laurentii Sifani I.V.D. et Ioannis Levvenklaii. Quid hac secunda editione praestitum sit, et quae prioribus libris accesserint, ex prooemiis interpretum lector intelliget. Additus est index rerum memorabilium, et locorum scripturae uberrimus. Basileae, per Eusebium Episcopium, et Nicolai fratris haeredes. 1571.*

George Forbes used Sifanus' translation with his first critical edition of the Greek text in 1855, because "it is by far better than the translation by Zinus," nevertheless correcting it "in many places" (iii) (see chapter VII).

19. Ib. 34.

20. Ib. 46.

21. Ib. 53 f.

22. Ib. 23 f.

As was the custom of the time, the translators did not indicate, which manuscript(s) they based their translation on, so that one can only make an erudite guess. Forbes (iii) noted that Sifanus appears to have followed a manuscript similar to Vaticanus graecus 697, while Zinus seems to translate from a manuscript belonging to the family Oxoniensis 3036, Monacensis 192, and Vaticanus graecus 1433.

## VII.

The Greek text was first published in Paris, 1615:

*S. patris nostri Gregorii episcopi Nysseni, fratris Basilii Magni, opera omnia quae reperiri potuerunt, Graece et Latine nunc primum ex mss. codd. in lucem edita, et in duos tomos divisa. Additae sunt variae doctiss. virorum notae, quibus cum interpretatio vetus quorundam librorum emendatur, tum nova reliquorum illustratur. Cum indicibus locorum sacrae scripturae et rerum memorabilium.* Parisiis, ex officina Nivelliana, apud Sebastianum Cramoisy, via Iacobaea, sub ciconiis. MDCXV.

Also printed by:

Apud Michaellem Sonnum, via Iacobaea, sub scuto Basileusi.

Apud Claudium Morellum, via Iacobaea, ad insigne fontis.

[*In Hexaemeron*: tomus I, 1–43]<sup>23</sup>

Reprinted with corrections and additions, Paris 1638:

Τοῦ ἐν ἁγίοις πατρὸς ἡμῶν Γρηγορίου ἐπισκόπου Νύσσης τὰ εὐρισκόμενα. *Sancti patris nostri Gregorii episcopi Nysseni opera. Nunc denuo correctius et accuratius edita, aucta, et notis, nec non indicibus necessariis ornata, et in tres tomos distributa.* Parisiis, sumptibus Aegidii Morelli, via Iacobaea, ad insigne fontis. MDCXXXVIII.

[*In Hexaemeron*: tomus I, 1–43]<sup>24</sup>

This second edition was eventually reprinted by Jaques-Paul Migne in his monumental series “Patrologia Graeca,” Paris 1858, including the Latin translation by Franciscus Zinus of 1553 etc.:

*Patrologiae cursus completus seu bibliotheca universalis, integra, uniformis, commoda, oeconomica omnium ss. Patrum, doctorum scriptorumque ecclesiasticorum ... Series Graeca ...* accurante J.-P. Migne. *Patrologiae Graecae* tomi XLIV–XLVI: S. Gregorius Nyssenus. Excudebatur et venit apud J.-P. Migne editorem ... [Parisiis] 1858.

Τοῦ ἐν ἁγίοις πατρὸς ἡμῶν Γρηγορίου ἐπισκόπου Νύσσης τὰ εὐρισκόμενα πάντα. *S.P.N. Gregorii episcopi Nysseni opera quae reperiri potuerunt omnia* (Ed. Morell. 1638), *nunc denuo correctius et accuratius edita et multis aucta.* Accurante J.-P. Migne ....

23. Ib. 50 f.

24. Ib. 58 f.

[*In Hexaemeron*: tomus I (= PG 44) col. 61–124]<sup>25</sup>

Again, Morel does not tell, on which manuscript(s) he based his text. It seems, however, that he used the Parisinus graecus 1008 or a codex very similar to it, as the concurrences are virtually complete. The extremely few differences can easily be explained by deliberate alterations by the editor.

Three years before George H. Forbes had presented the first critical edition of the treatise, adding the Latin translation of Laurentius Sifanus (1562 etc.), and adapting it to his new text:

Τοῦ ἐν ἀγίοις πατρὸς ἡμῶν Γρηγορίου ἐπισκόπου Νύσσης (ἀδελφοῦ τοῦ μεγάλου Βασιλείου) τὰ εὑρισκόμενα πάντα. *Sancti patris nostri Gregorii episcopi Nysseni Basilii Magni fratris quae supersunt omnia. In unum corpus collegit, ad fidem codd. mss. recensuit, Latinis versionibus quam accuratissimis instruxit et genuina a supposititiis discrevit* Georgius H. Forbesius. Tomus primus. Burntisland, e typographo de Pitsligo. 1855.

[*In Hexaemeron*: fasc. I, 4–94]<sup>26</sup>

Forbes based his edition on the following ten manuscripts:

1) Monacensis 23; 2) Oxoniensis 3036; 3) Musei Britannici 16. D.I.; 4) Monacensis 192; 5) Coislilianus 253; 6) Regius 1268; 7) S. Marci 67; 8) Vaticanus 405; 9) Vaticanus 697; 10) Vaticanus 1433. Furthermore, Forbes inspected Nanianus 78 and Taurinensis 71, without making use of them, because he considered them not worthwhile (ii), and Baroccianus 144, which only contains a fragment of a single page.

Moreover, Forbes knew of the fragments in Parisinus graecus 503 and 940 and suspected that he might have overlooked some more manuscripts in the Bibliothèque Nationale, as “the catalogue is very inaccurate” (ii).

This edition was reprinted in 1996:

Γρηγόριος Νύσσης (Μέρος Α', Ι). Γενική Ἐπιστάσια καὶ Ἐπιμέλεια Ἡλία Δ. Μουτσούλα. Ἐπιμελήτρια Γεωργία Π. Κουνάβη (Βιβλιοθήκη Ἑλλήνων Πατέρων καὶ Ἐκκλησιαστικῶν Συγγραφέων 65 Α', Ι) (Athens, 1996) 525–64.

### VIII.

Finally, three very helpful tools for the compilation of the *apparatus fontium et testimoniorum* have been published in recent years:

Two biblical indices:

1) Hubertus R. DROBNER, *Bibelindex zu den Werken Gregors von Nyssa*, (Paderborn, 1988); and 2) *Biblia Patristica*. Index des citations et allusions bibliques dans la littérature patristique. 5: Basile de Césarée, Grégoire de Nazianze, Grégoire de Nysse, Amphiloque d'Iconium (Paris, 1991).

25. *Ib.* 89 f.

26. *Ib.* 87.

A German translation with commentary:

Gregor von Nyssa, Über das Sechstageswerk. Verteidigungsschrift an seinen Bruder Petrus. Eingeleitet, übersetzt und kommentiert von Franz Xaver RISCH (= Bibliothek der Griechischen Literatur 49) (Stuttgart, 1999).

Otherwise the *In Hexaemeron* was hitherto only translated into Italian:

Opere di Gregorio di Nissa, a cura di Claudio MORESCHINI (= *Classici delle religioni. La religione cattolica*) (Torino, 1992) 587–622.

### IX.

The basic collation of the above-mentioned six manuscripts of primary importance with the editions by Morel/Migne and Forbes indicates that the new text will presumably differ from Migne's text in about 420 places, and from Forbes' in about 260 instances, about 180 of them not concurring with either of them.

Compared to the overall size of the text (32 columns in Migne = 1788 lines) these variants will not account for a widely different text, but certainly for no small number of new insights, based on the complete evaluation of all hitherto known manuscripts.
