Date of Publication, December 2011
ISSN: 0078-2521

The Proceedings of the Nova Scotian Institute of Science are supported in part by a grant from the Department of Tourism Culture and Heritage, Government of Nova Scotia, with the support of the Nova Scotia Museum. Publication of articles, principally but not exclusively in the area of the natural science and engineering, will be considered as well as papers emanating from studies in the health professions. Both regular issues and special issues devoted to topics of current Nova Scotian or Maritime interest are published.

EDITORIAL BOARD

| | |
|--|--|
| Peter G. Wells (Dalhousie University) | Editor |
| David H.S. Richardson (Saint Mary’s University) | Associate Editor |
| Gail LeBlanc | Production and Layout |
| One Oh One | Printing |
| Roby Austin (Saint Mary’s University) | Physics |
| Nola Etkin (UPEI) | Chemistry |
| Mike Dadswell (Acadia University)..... | Aquatic Ecology, Fisheries, Tidal Power |
| David Garbary (St. Francis Xavier University)..... | Plant Biology |
| Bruce Hatcher (Cape Breton University) | Marine science |
| Martha Jones (Cape Breton University) | Estuarine ecology, Invasive Species |
| Andrew Hamilton-Wright (Mount Allison University)..... | Artificial Intelligence |
| Eric Mills (Dalhousie University) | History of Science |
| Brian Petrie (BIO-DFO) | Oceanography |
| David W Piper (BIO-NR Can) | Geology |
| Martin Willison (Dalhousie University)..... | Conservation Ecology |

Manuscripts should be submitted electronically to the editor (**nsis@dal.ca** and **oceans2@ns.sympatico.ca**). Membership of the NSIS is open to all those interested in Science and subscription details can be found on the Nova Scotian Institute of Science website **http://www.chebucto.ns.ca/Science/NSIS**. Members of the NSIS are not required to pay page charges but others are currently charged \$25 per page to help defray the cost of publication **http://www.chebucto.ns.ca/Science/NSIS/index-new.html**

This journal is abstracted in:

- Biological Abstracts
- BIOSIS Previews
- GeoRef
- Zoological Record
- CAB Abstracts

Cover: A Hoary Bat *Lasiurus cinereus*, one of three bat species recorded inland and at offshore locations in Nova Scotia (see Lucas and Hebda, this issue pp. 117-138) and which are vulnerable to injury by wind turbines. Bat species that hibernate in Nova Scotia are also threatened by the white nose syndrome (see editorial pp 111-114).

Cover photo: Brock Fenton. **Back cover photos:** P.G. Wells and Brock Fenton.
